Using the Wax Chambers

Powering Up the AquaDabber

Press the power button 5X times. The AquaDabber is now powered on. Once you have powered on the unit, press the power button 2x times to activate the heating. We suggest waiting til the timer on the unit reaches 30 seconds then proceed to inhale until the duration of the cycle which ends when the timer reaches 60 seconds. The Ceramic Chambers are best for terpy flavors to come to your palate.

Did you accidentally start the heating cycle? Press power button 2x times to STOP

11

2 Ways to Use the AquaDabber

as a Wax Pen....

as a eNail.....

Using the Herbal Chamber

Powering Up the AquaDabber

Press the power button 5X times. The AquaDabber is now powered on. Once you have powered on the unit use the smaller buttons on the bottom left and right of the OLED screen to set your desired temperature 104°F - 446°F (40°C - 230°C). Press the power button 2x times to activate heating. A symbol will be visible while heating. We suggest waiting til the timer on the unit reaches your desired temperature then proceed to inhale until the duration of the cycle. Once the desired temperature is reached a symbol will be visible for 4 minutes while temperature is maintained. If the screen ever reads "No NTC" please check the atomizer.

Did you accidentally start the heating cycle? Press power button 2x to STOP

Heating Activated When Up Arrow is displayed

Set Temp Reached Heat Maintenance Has Started

Fully Isolated Air Path for Clean Vaping

Air is fully directed to the heating chamber, isolating its path from the electronics ensuring a clean and pure vape each time.

• DO NOT BLOW INTO MOUTHPIECE • ONLY USE GENUINE 710 LIFE AQUADABBER

REPLACEMENT PARTS

When laying down, upside down, or when the AquaDabber is not in use, close the Airflow intake hole to prevent water leakage as well as vapor leakage.

15

The mouthpiece of the AquaDabber may become clogged when used for an extended amount of time, resulting in difficult draw resistance or less vapor being released. Use the following guidelines to clean and maintain your device:

 Ceramic Flower Chamber: Use the brush tool to gently clean the walls of the heating chamber. • Cleaning from Chamber Adapter up to Mouthpiece: Carefully soak the pieces in an denatured or isopropyl alcohol sook for 30-60 minutes or longer to thoroughly clean all of the pieces. For stubborn stains, rub gently with a damp cotton swab. Remove from isopropyl alcohol bath and

Tips

For best results, do not over-pack the ceramic heating chamber with your product.

Over packing will cause constricted air flow and uneven vaping.

After filling, use the packing tool to gently stir and aerate the product to ensure vapor is released.

Always properly prepare the device before use to reduce blockage of the mouthpiece.

Initially first charge the AquaDabber for 5 to 6 hours. The battery will stop charging when the icon is full. When the battery level is low, charge battery with included USB charging cable. Low battery level will be indicated with icon flashing consecutively.
Charging the AquaDabber while powered on, the OLED display will stay lit.
Charging the AquaDabber while powered off, only the battery icon will be visible.

To prevent the device from overheating, do not leave the charger plugged in overnight.
Do not leave charger plugged in or unattended without the device. Do not charge unit on bare

The device contains a Lithium-Ion battery. Take caution and dispose in the correct receptacle.

Do not discard in trash. Do not over charge. Do not short circuit the battery.

Notice: Lithium Ion Batteries are subject to degradation and reduced run time over the course of regular use at over 200°F; while Flowermate took great care in selecting premium quality long life Lithium Ion batteries due to their non-memory features and ability to cycle 300 times preceding degradation, battery life will gradually diminish with extended use.

Failure to follow these safety instructions could result in personal injury or damage. Users of this device do so at their own risk. Neither 420Life nor its retailers assume any responsibility or liability associated with the use/misuse of the device. 420Life / 710Life branded products are intended for adult use and consumption only. Keep this booklet in a safe place for any needed future reference.

This device is designed as a mobile solution for the practitioners of aromatherapy and should be used for dry herbal blends as indicated. This device is not intended for use with tobacco or illegal substances.

The AquaDabber contains small parts which may be a choking hazard to small children. Keep device away from all children and exercise extreme caution when using this device. Pay very close attention if you have small or infant children around as small parts and their curious nature can be dangerous to their safety or life and the safety of your surroundings

18

Do not dismantle the sealed housings, drop, deform, bend, crush, puncture, incinerate microwave, or insert foreign objects into the AquaDabber Vaporizer or any of its parts. Do not clean AquaDabber other than instructed by staff or this manual by 420Life / 710Life.

Do not use a damaged AquaDabber charger or non 420Life / 710Life charger.
Incompatible chargers do not contain the same circuitry required for safe or optimal charging and may carry different voltage or non cut off circuit, which may be a fire or explosion hazard.
Use only the charger provided or sold at 420Life.com. Failure to do so will void the limited warranty offered on Flowermate Technology products.

Use caution when handling AquaDabber, the heating chamber area is hot when the device is powered on. Refrain from direct contact with the main heating chamber when hot. Do not leave the device unattended when it is powered on or while the device is still hot. Keep away from heat or flame.

19

The device is equipped with a safety sleep mode. When the device is powered on and there is no operation for over 30 Seconds, it will go into sleep mode. Press any key to wake the device.

The device features a smart memory function. It will memorize the data of current use before powering off. When powered on for next use, the last setting will be displayed.

The AquaDabber is equipped with a smart OLED display to manually configure any desired temperature setting within the modular range of the herbal atomizer only. The ceramic wax atomizer is smart controlled for low temp dabs and preservation of the atomizer. The triple quartz coil is for huge vapor. Best flavor is obtained with the temp Smart Controlled Ceramic
