- Approx 12 x 5 minute cycles per full charge

6

Filling the Water Chamber

Fill the mouthpiece with 10-25% Water

If you overfill it and need to remove some water simply follow the instructions on the next page.

7

Emptying the Water Chamber

Simply detach the mouthpiece from Vape. Then blow air into the hole like a balloon being filled, and then your done. Never blow into the mouthpiece while it is still attached to the vaporizer, damage can occur. If you do turn vape upside down and allow to dry.

You may also do this if you have over filled your mouthpiece and need to remove some water from inside.

8

Friendly tips:

Coil element & heating chamber becomes extremely hot. Do not touch once powered on. Do not leave unattended while powered on. Do not leave the unit plugged in for longer than 8 continuous hours. Do not let any liquids, waxes or gels contact inner electronics. Do not customize or modify unit internally or externally. Do not leave unit unattended while powered on. Do not let any liquids, waxes or gels contact inner electronics. Do not customize or modify unit internally or externally. Failure to follow cautionary tips may void warranty and can seriously injure you or your property.

9

Filling the Device

Unscrew the glass mouthpiece counter-clockwise. Make sure the chamber is empty.

Fill the Chamber with your favorite herbal blend.

Follow the Instructions for
 "Using the Device" pg 10-11
 "Setting the Temp" pg 13-14
 "Cleaning the Device" pg 11-12
 "Charging the Device" pg 16

10

Using the Device

Click power button 5 times to power it on or Turn it off. The red LED will flashes 3 times when powering on or turning off.

The device will heat automatically when it is powered on.

The LED light around power button will turn on in a breathing like pattern with in red when it is on and heating.

The red light will turn to green and vibrate when your desired set temperature and it is now ready for vaping.

Each heating cycle will last 5 minutes, for less time simply click the power button 5 times and the device will turn off.

11

Using/Charging the Device

When you charge the device, the LED light will turn solid red. The light will turn to green when the device is fully charged and ready to unplug. Approx 2-3 hours.

Digital screen will show battery status, set temperature, real time temperature and current heating time. The device will automatically shut off after 5 minutes. It is best to let the device cool down for a few minutes before re-heating, cleaning or adding new herb.

Do not use more than 2X (10 minutes) without letting the device cool down. About 12 uses per charge.

12

Warning: Always allow to completely cool before touching or cleaning or placing back in case or other area.

Charging:
 Connect micro USB cable into charging port to start charging. The LED light will stay RED while the device is charging. The LED light will stay GREEN while the device is fully charged. Remove the micro USB cable before starting the device.

Important safety warnings:
 Do not try to operate the vaporizer while charging.
 Do not expose to extreme temperature or direct sunlight.
 Do not drop the unit. Do not submerge in any liquid.
 Do not modify the electronics in any way. Please allow the full cool down between cycles or cleaning.
 420 KnockOut and all vaporizers are intended for adult 21+ use only.

13

Setting the Temperature

The larger temperature displayed on the left shows the current real time temp. The smaller temp reading above the timer is your set temp

After the device is powered on, press and hold down the power button for 3 seconds for the device to enter into custom temperature adjustment mode. Then briefly press 1 time per second to increase the temp 1° or continue press and hold the button to increase the temp. 50° per second held. When close to your desired temp let go of button and press button 1 time per second to fine tune your temperature 1° at a time. (pressing faster than one time per second will shut off device)

14

Switching Between °F and °C

We made switching as simple as can be.

When the device is powered on....
 Click 3 times to switch between
 Temperature Scales °Fahrenheit & °Celsius

Temperature range
 302°F-464°F (150°C-240°C)

15

Keep all parts, concentrates, herbs and liquids away from children, pets and flammable materials. Pure KnockOut is not a medical device and is not intended to diagnose, treat, cure or prevent any ailment, disease or any other medical condition. Do not use if pregnant, breastfeeding or may become pregnant. Failure to follow any of these instructions could result in product damage, property damage or personal injury. Dropping or submerging in liquid, improper cleaning, neglect, or any other damage that is not a result of defective materials or craftsmanship voids your warranty.

Important note: Vaporizer tips are disposable attachments. Once used, no warranty will be offered on used tips.

16

Cleaning and maintenance:

1. Remove the glass mouthpiece from the Pure KnockOut body.
2. Remove all the herb from the chamber.
3. Use 99% ISO alcohol on a qtip swab.
4. Soak the mouthpiece in 99% ISO alcohol to remove any residue.
5. Rinse out the alcohol with water into the top mouthpiece until all alcohol is thoroughly flushed out of the glass mouthpiece and allow to dry. Reassemble the device after residue has been cleaned and is fully dried.

17
